

# How to make a wiki table

1. Install **WikiTableWorks** for Google Sheets.
  - a. Install using [Google Chrome Web Store](#).
  - b. Install using [Google G Suite Marketplace](#) (recommended).
  - c. *NOTE: Google has provided details about the [editor add-on migration from Chrome Web Store to the G Suite Marketplace](#).*
2. Select a range in the Google Sheets spreadsheet.
3. From the top-level **Add-ons** menu, select **WikiTableWorks** and click “Convert range to wiki table...” to export range as a wiki table.
4. The wiki table is generated using WikiSyntax markup in a sidebar.
5. Copy and paste the exported wiki table into MediaWiki or Wikipedia.
